CRETAN FOOD

No visit to Crete is complete without mentioning the incredible Cretan Diet

## CRETAN FOOD

We feel privileged to live and breathe the Cretan nature in our day to day life. We strive to reflect this in the resort's restaurants by using local, seasonal ingredients in recipes which embody the quintessential staples of this fascinating cuisine.

### THE CRETAN DIET

A world-famous culinary heritage, it has provided Crete's inhabitants with longevity and a staggering number of centenarians due to its healthy nature. The Cretan cuisine's essentials are delightfully simple: **olive oil, olives, seasonal legumes and pulses**. Whether inside or outside the Cove we highly recommend you discover this wonderful world of taste, sense and smell in the form of understated, humble dishes. Simplicity at its best.

## OUR PICKS

## OLIVE OIL

The juice of the noble fruit that is the olive forms a dominant part of the Mediterranean culinary world. With Crete boasting some of the oldest olive trees in the world and small family quality farming, this staple is found in practically every dish on the island, sweet or savoury. Nowadays, two thirds of the island's cultivable land is put to olives producing consistently high-quality extra virgin olive oil.

## HONEY

Nature's golden healer has a special place in the heart of Crete. The streams and currents flowing through the Cretan mountains have skillfully carved out imposing landscapes with a flora unique to the island. Therefore the honey produced by the wonderful bees who forage the endemic vegetation is highly nutritious and packed with antioxidants.

## CAROB

This is the superfood that used to be called 'chocolate' by the locals in the olden days for its energy-giving properties. A frugal way of life on Crete meant that every single fruit the land generously gave was put to use. The miraculous carob is deeply entrenched in the life of Crete due to its high calcium (three times as much as full fat milk) and iron content.

## CHEESE

The island's flagship cheeses, *graviera* and sweet or salty *myzithra* are a local's favourite at any point during the day. Traditionally, cheese is eaten unaccompanied on Crete, as a starter or dessert. These are authentic Cretan tastes which will stay with you well after your holiday.

## HERBS

The Cretan terroir and its distinct biodiversity have provided the island with an exceptional variety of flowers and plants, many endemic to Crete. Fresh oregano, thyme, rosemary and dittany are only some of the extraordinary herbs that adorn every meat, fish or vegetable dish of the marvel that is the Cretan cuisine.

## OUR CRETAN ESSENTIAL TASTES

**DAKOS** Cretan rusk doused in extra virgin olive oil, fresh tomato, soft local cheese, tiny olives and aromatic thyme

**HOHLIOI** (Snails) *boubouristoi* is a typical Cretan dish, a delicacy seasoned in wine and wild rosemary
